Référentiel pour t'aider à calculer et à comprendre les nombres décimaux.

Rubanombre décimal exercices

Place les nombres au bon endroit : 2,4 - 5,11 - 7,95 - 8,06 - $1/2$ - $3/2$ - $1/4$

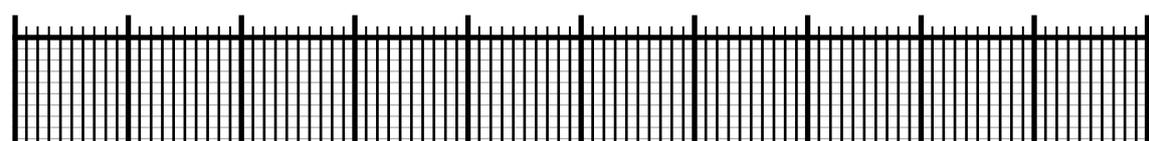

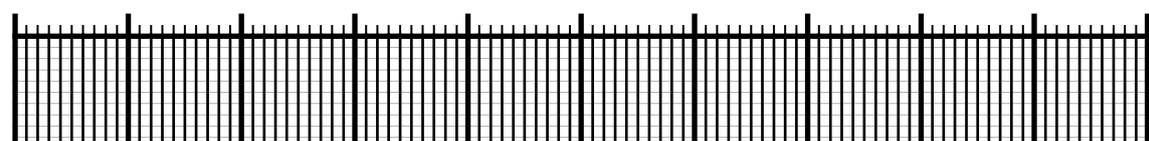

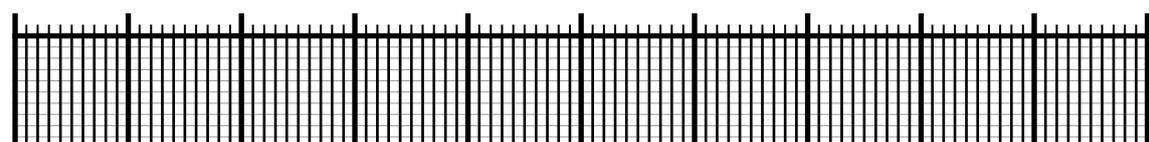

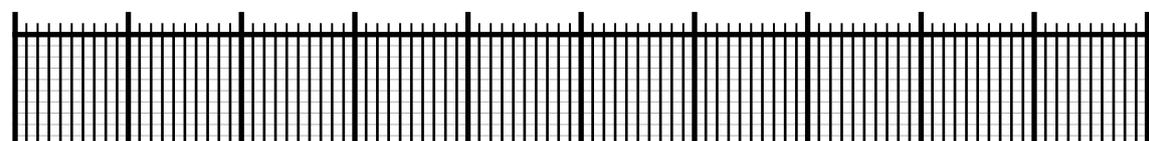

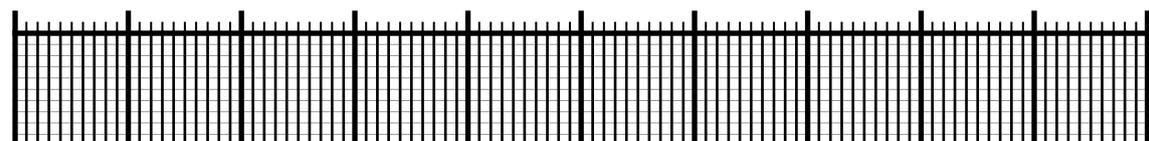

10 - 9,25 - $9/10$ - $19/10$ - $9/100$ - $1/5$ - $1/50$ - $5/2$ - 40% - 120% - 99%

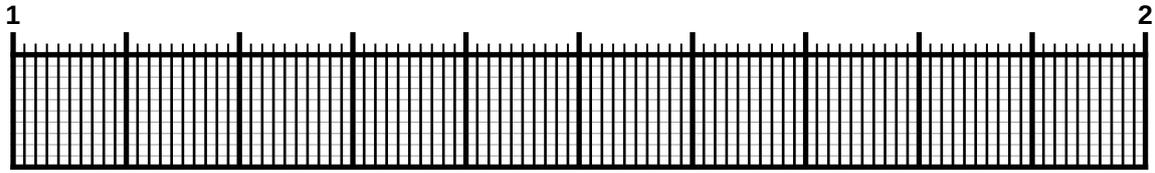

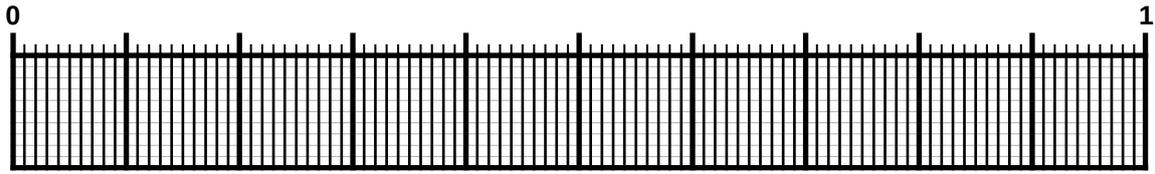

Rubanombre

décimal

exercices

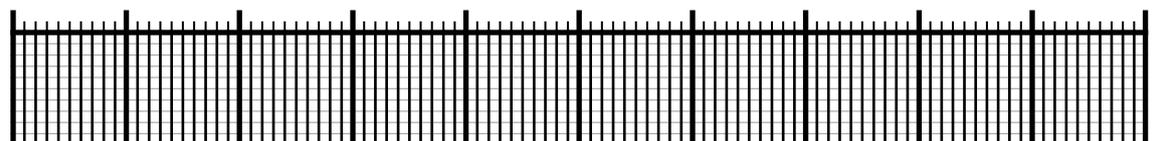

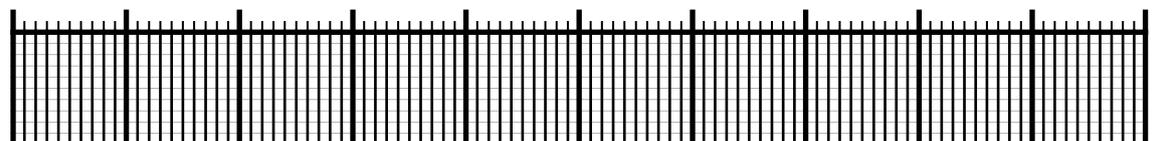

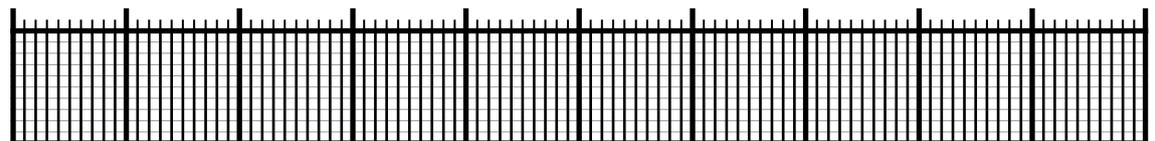

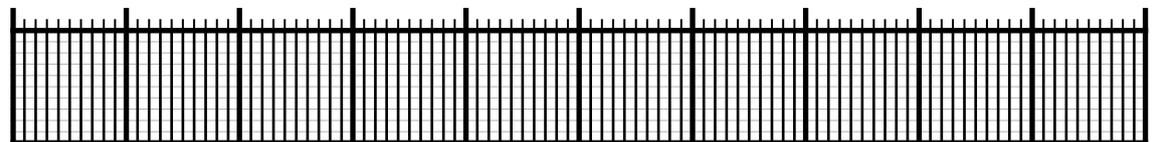

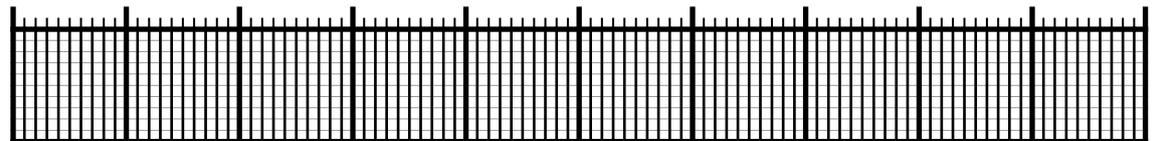

Place les nombres au bon endroit :

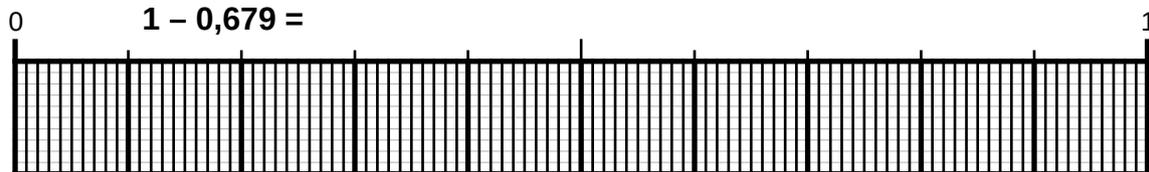

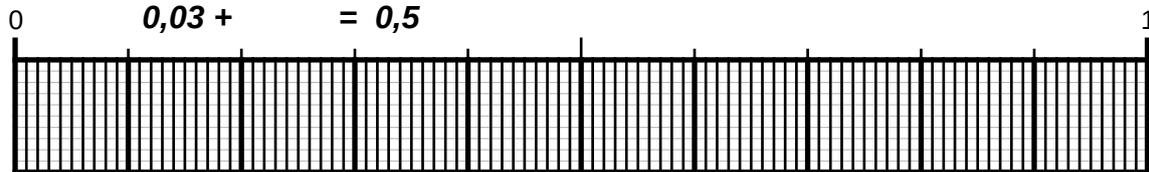

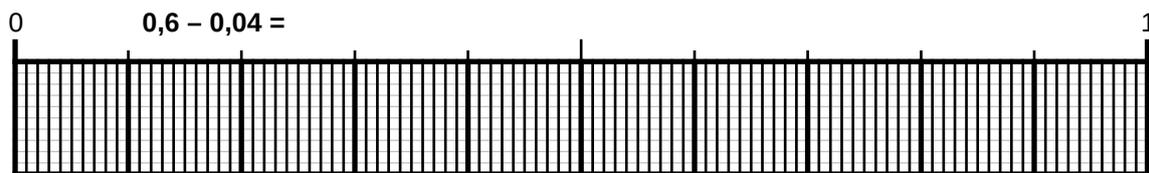

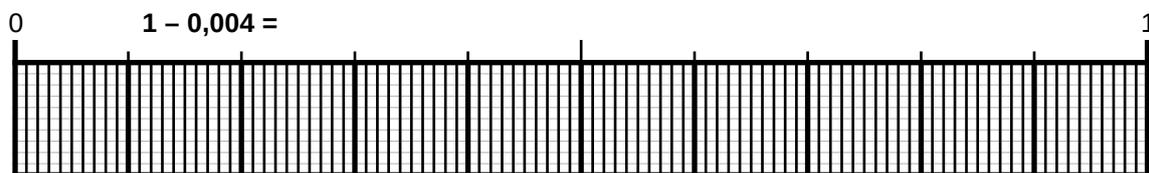

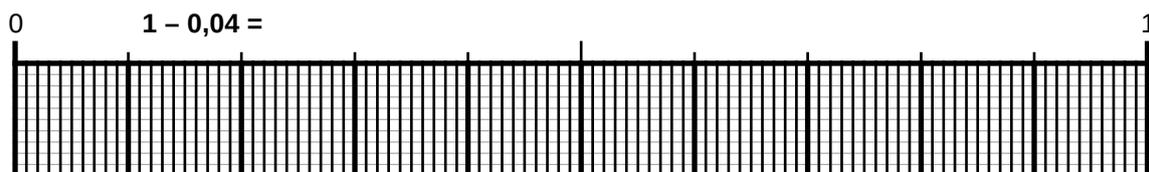

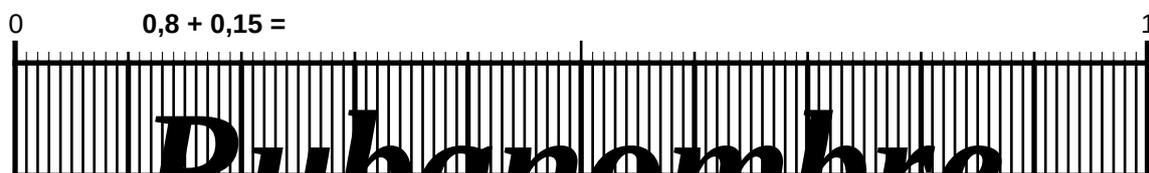

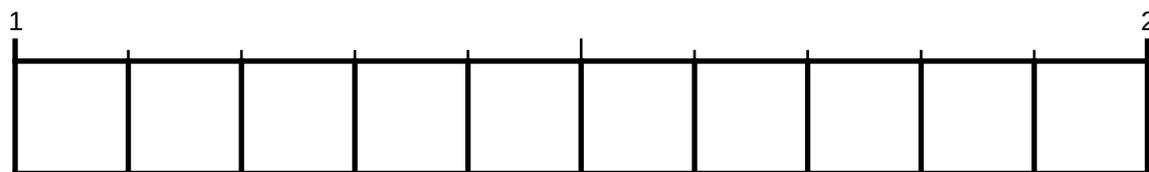

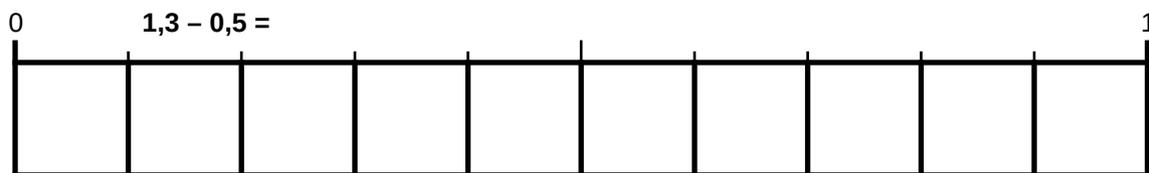

Rubanombre

décimal

exercices

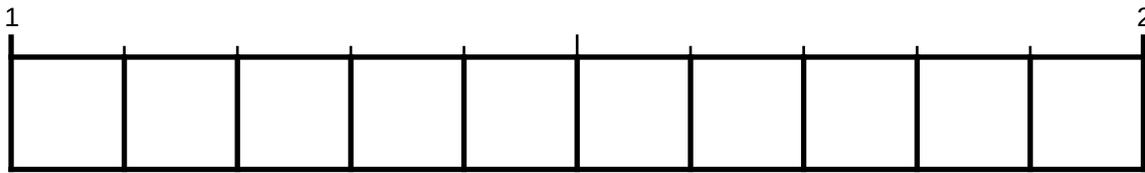

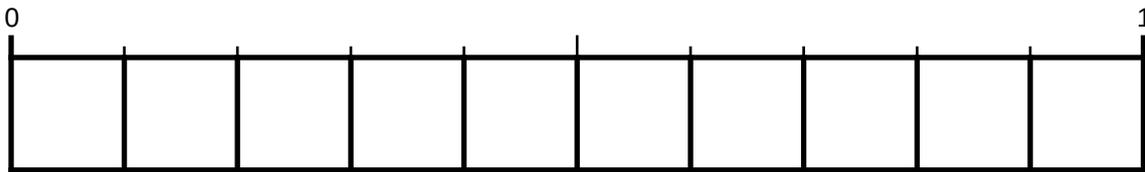

Colorie les calculs puis écris les réponses.

**Rubanombre
décimal
exercices**

Colorie les calculs puis écris les réponses.

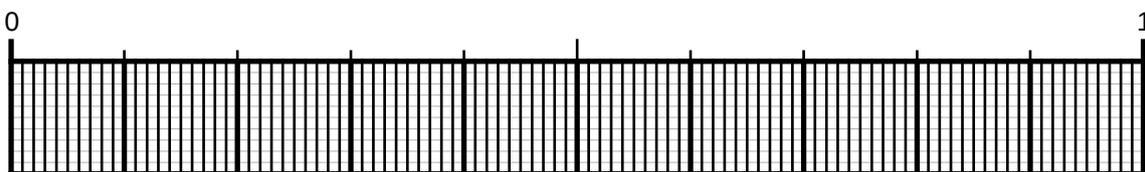

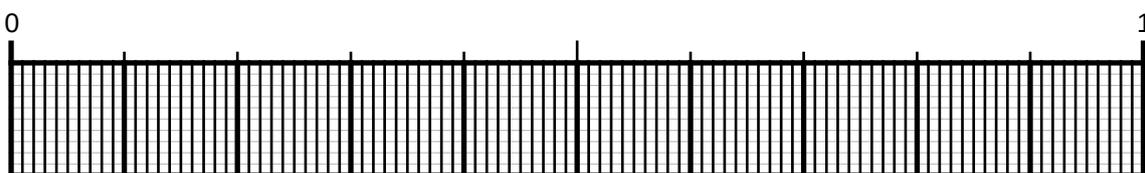

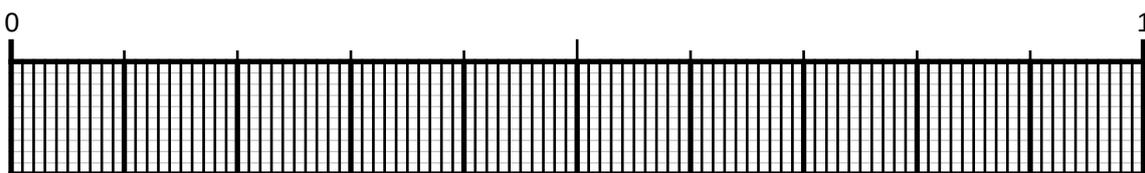

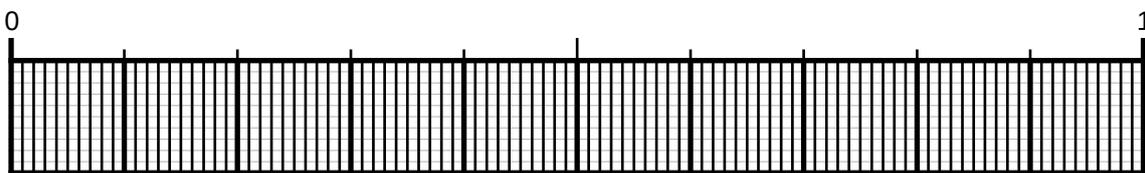

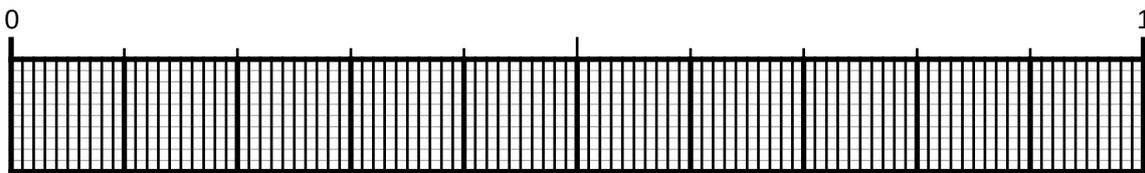

Rubanombre

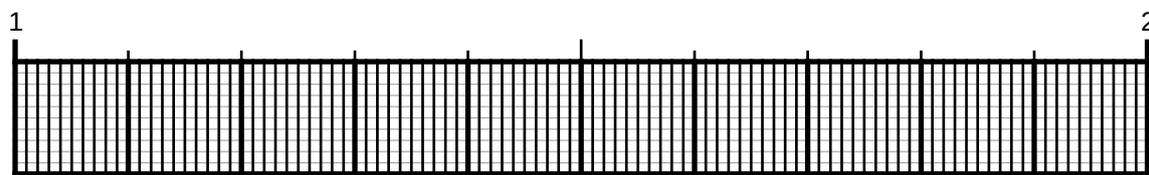

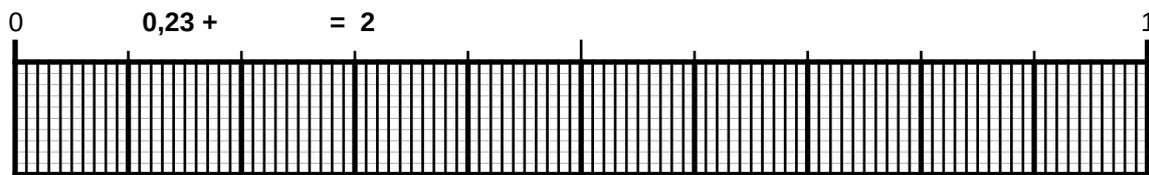

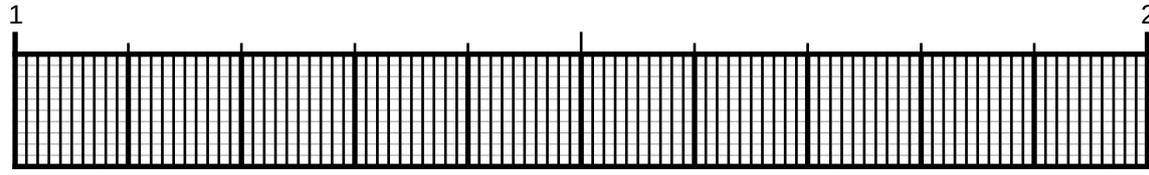

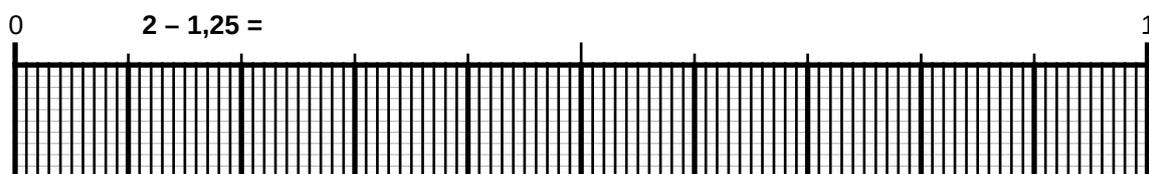

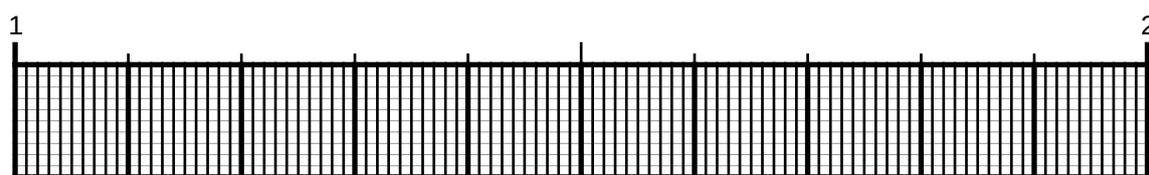

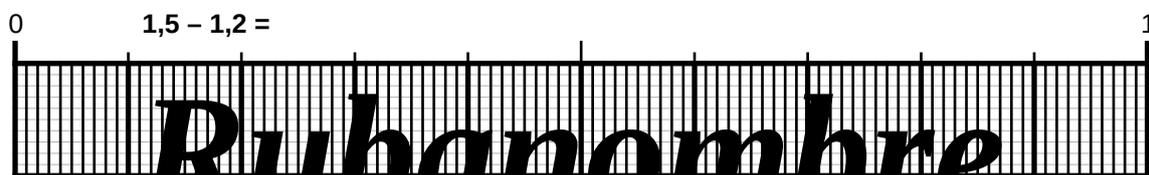

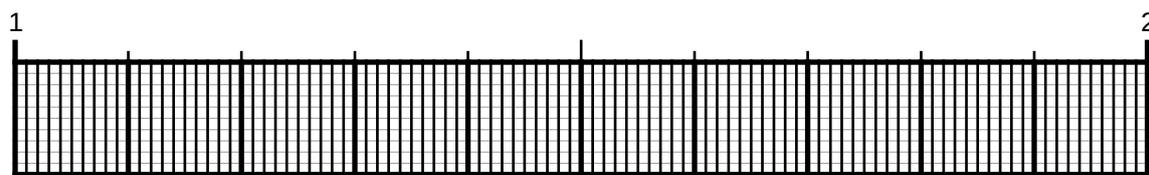

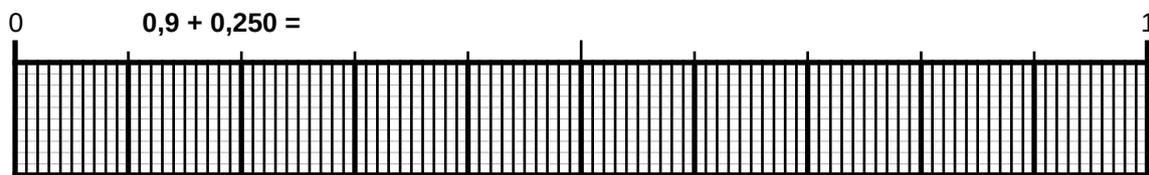

décimal

exercices

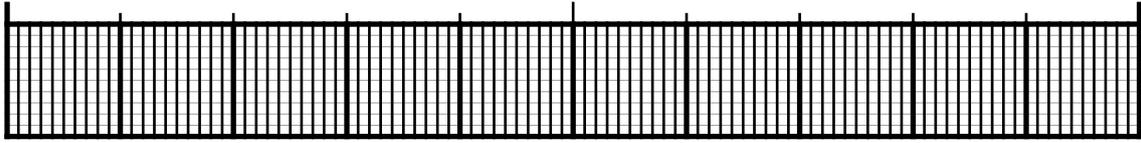

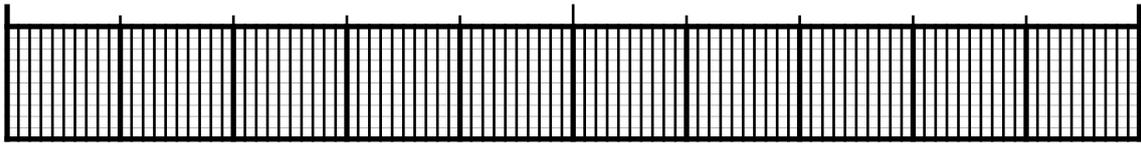

Colorie les calculs puis écris les réponses.

**Rubanombre
décimal**

exercices

Colorie les calculs puis écris les réponses.

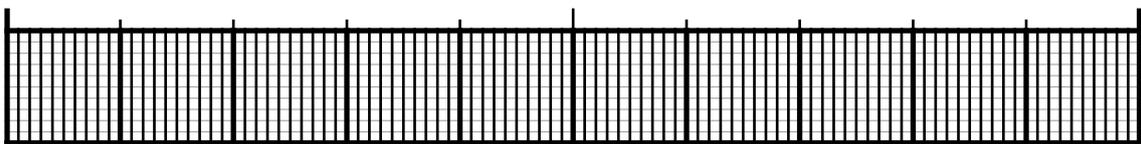

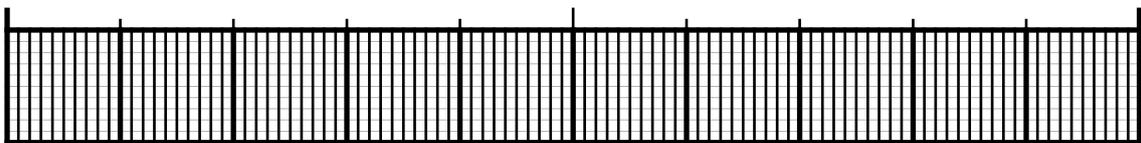

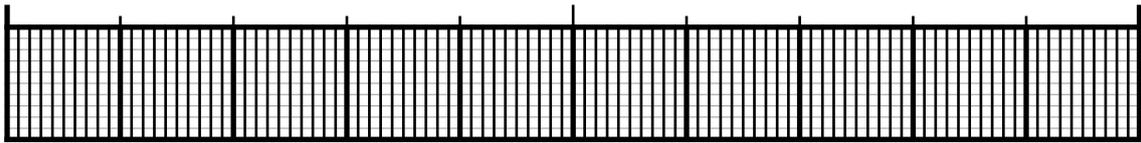

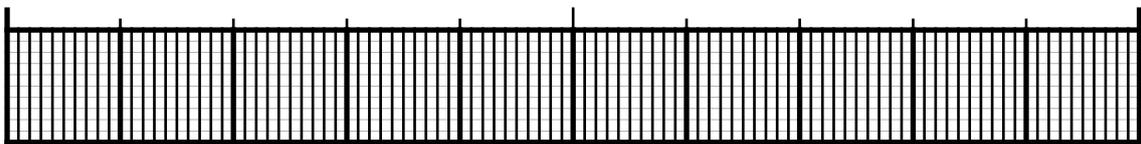

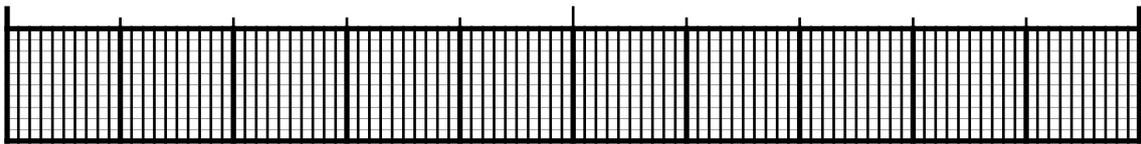

Rubanombre

décimal

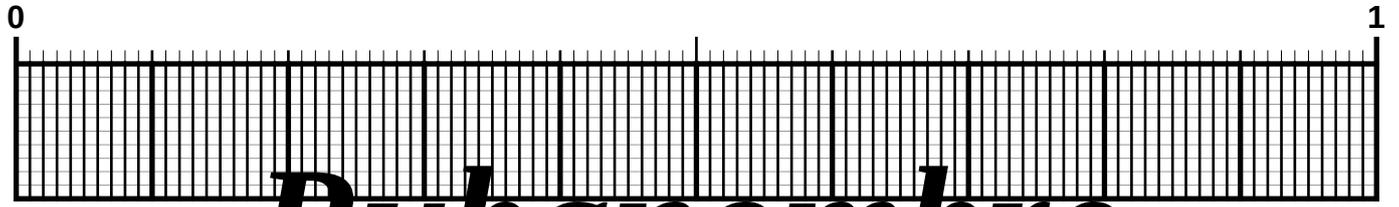

exercices

Classe les nombres dans l'ordre croissant puis, place-les sur la droite des nombres.
Lorsque tu as des millièmes, colorie les carrés entre deux centièmes pour préciser le nombre.
Dessine à chaque fois une flèche pour situer précisément les nombres.

0,2 - 0,22 - 0,02 - 0,222 - 1,2 - 1,202 - 0,002 - 0,75 - 1,75 - 1,705

< < < < < < < < <

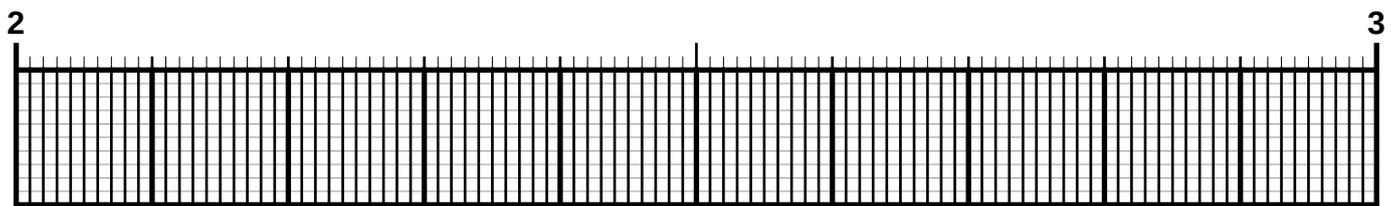

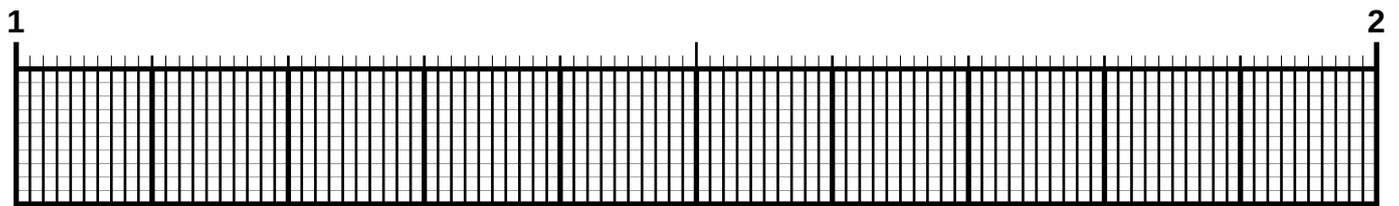

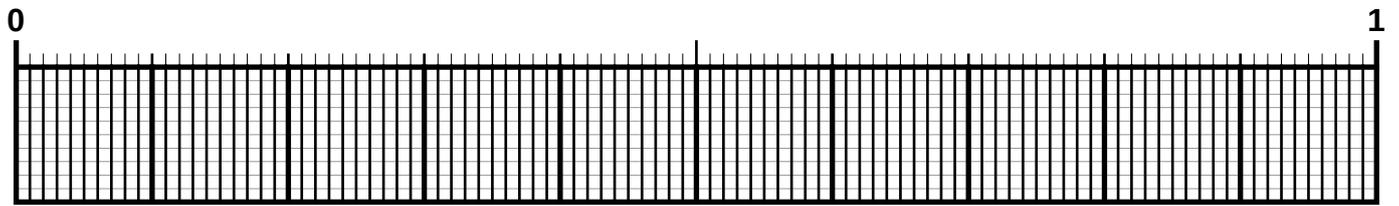

Rubanombre

décimal

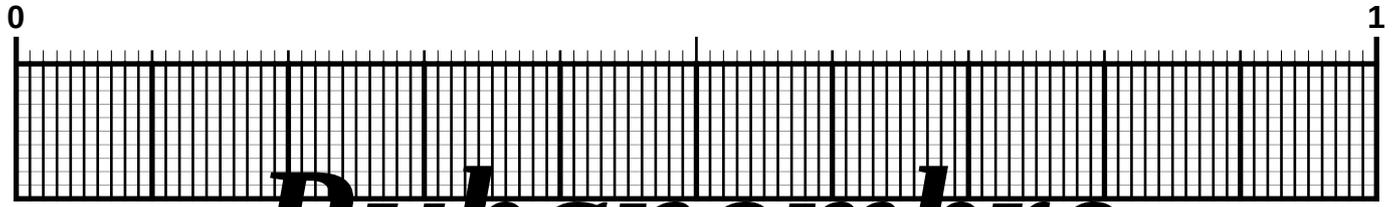

2,5 - 0,25 - 1,250 - 1,025 - 0,025 - 0,205 - 2,05 - 0,5 - 1,500

< < < < < < <

Classe les nombres dans l'ordre croissant puis, place-les sur la droite des nombres.
Lorsque tu as des millièmes, colorie les carrés entre deux centièmes pour préciser le nombre.
Dessine à chaque fois une flèche pour situer précisément les nombres.

< < < < < < < < <

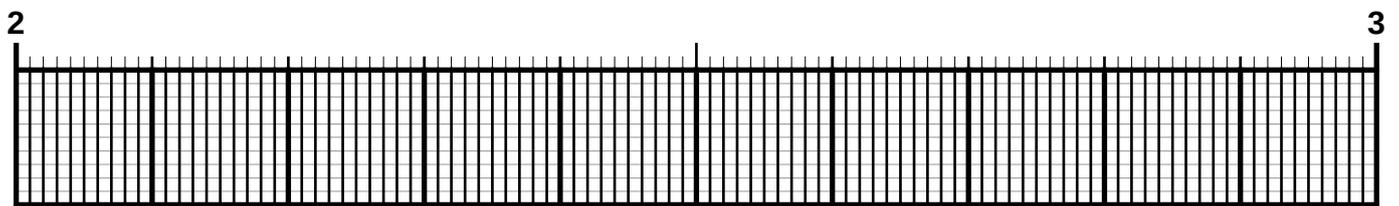

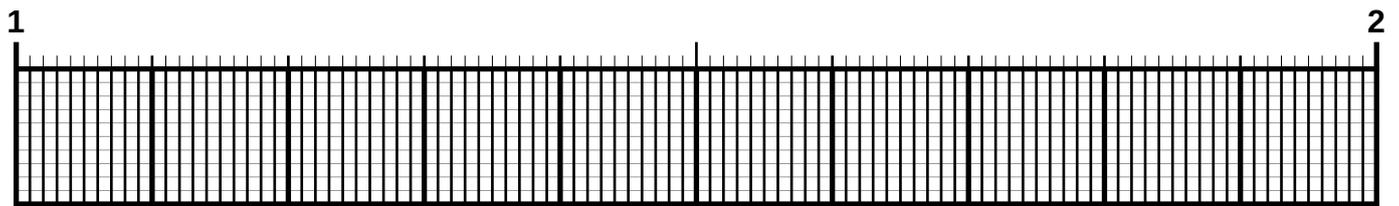

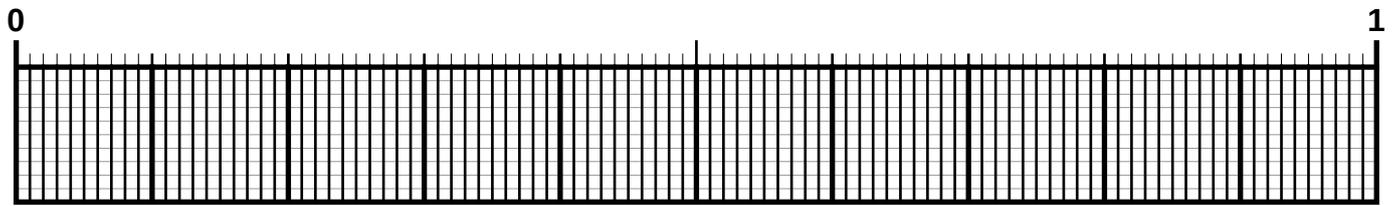

Rubanombre

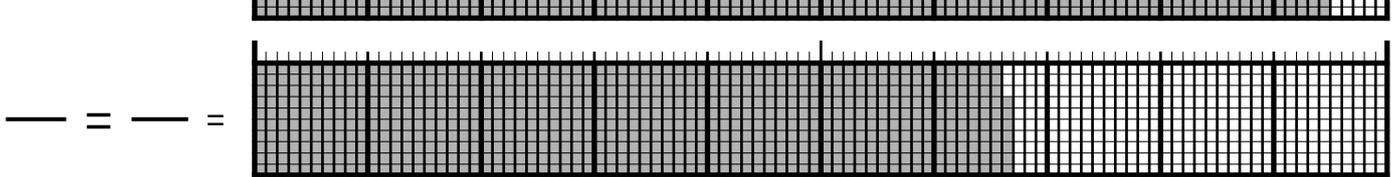

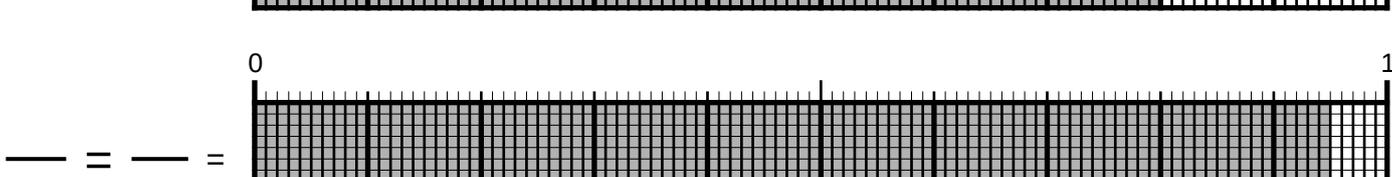

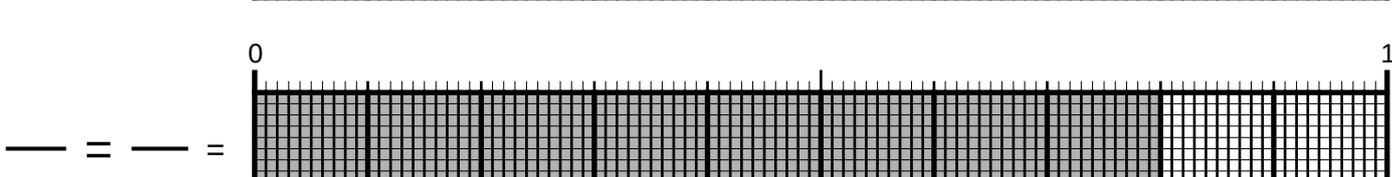

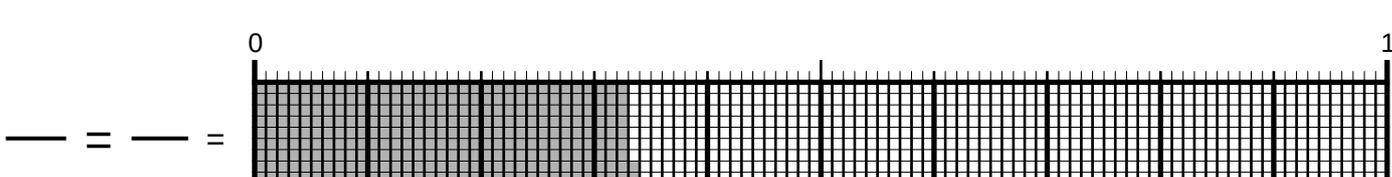

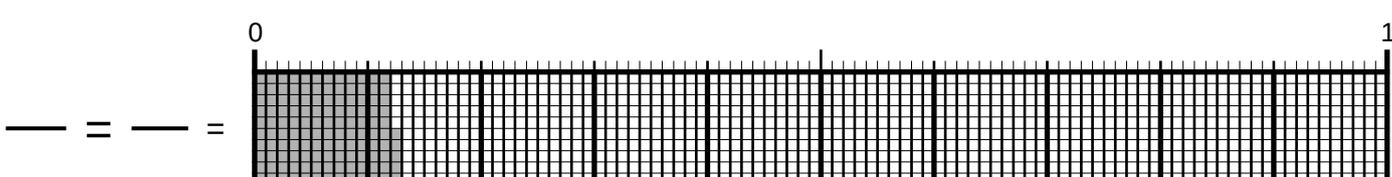

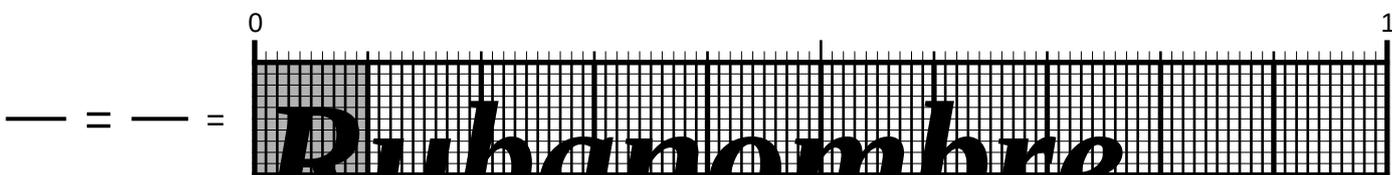

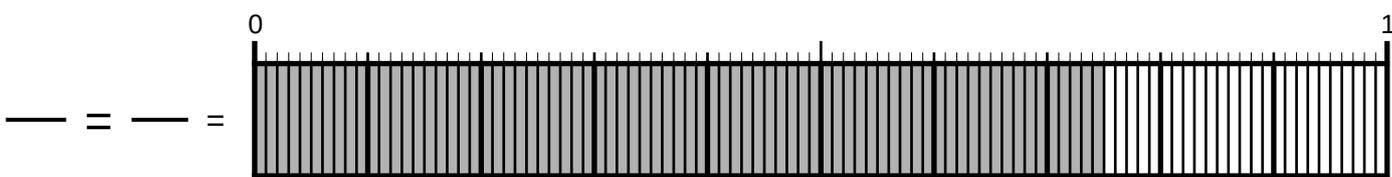

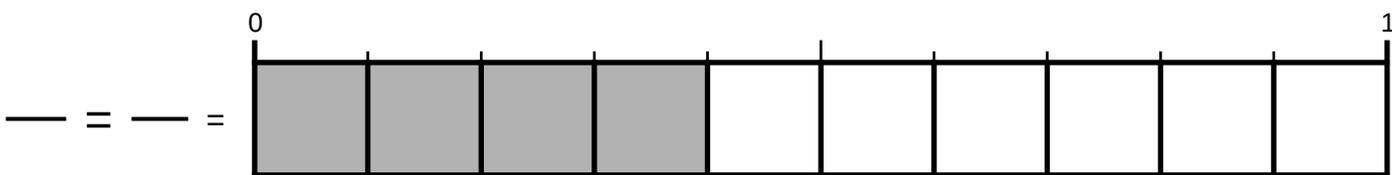

décimal

exercices

< < < < < <

Écris deux fractions correspondantes pour chaque partie de bandelette coloriée.

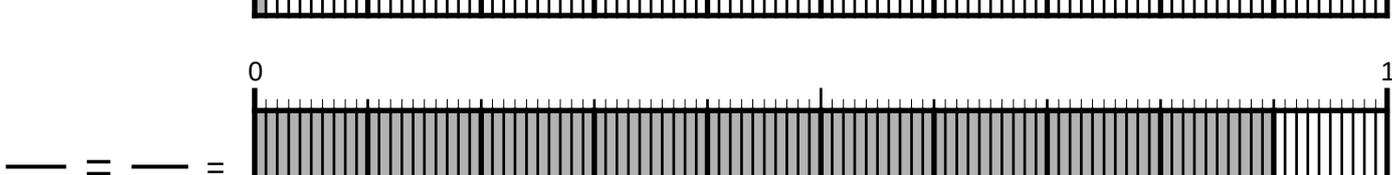

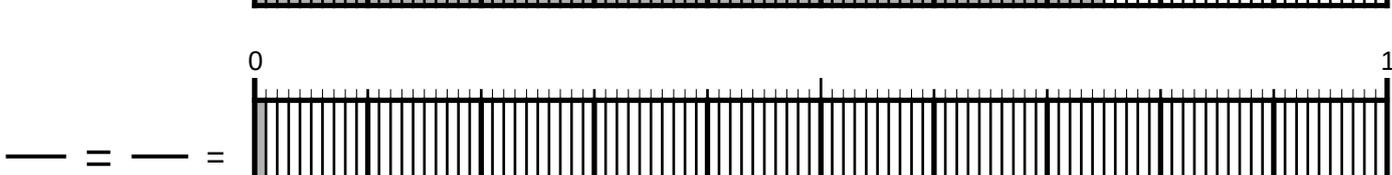

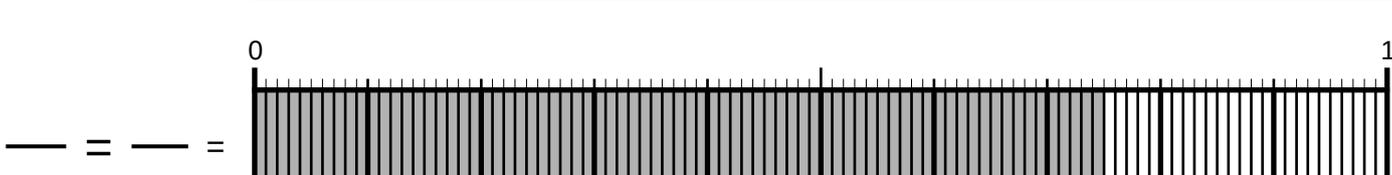

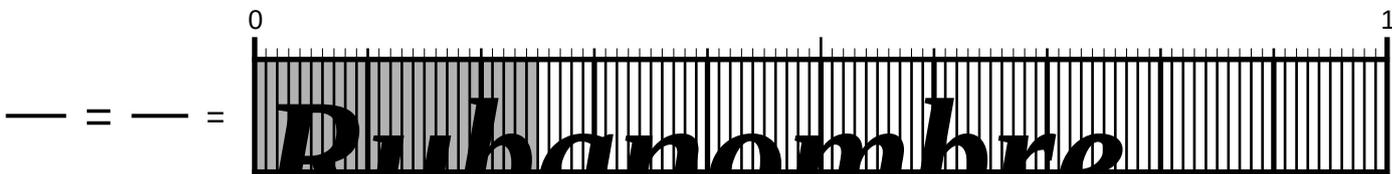

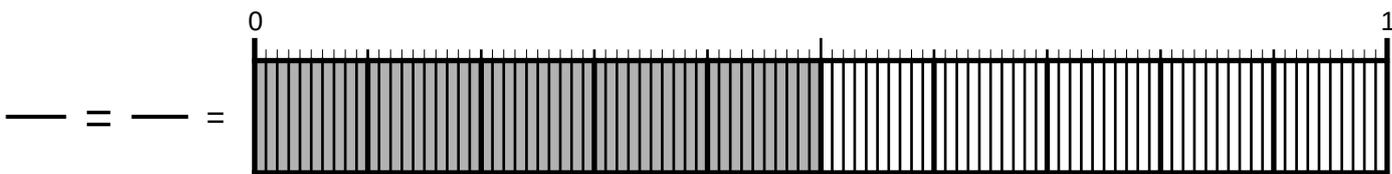

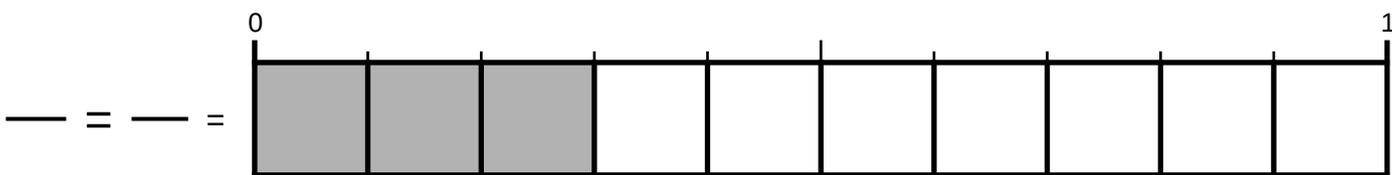

Rubanombre

décimal

exercices

Écris deux fractions correspondantes pour chaque partie de bandelette coloriée.

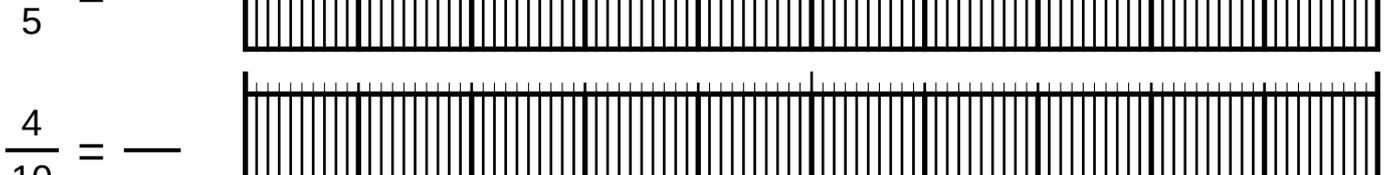

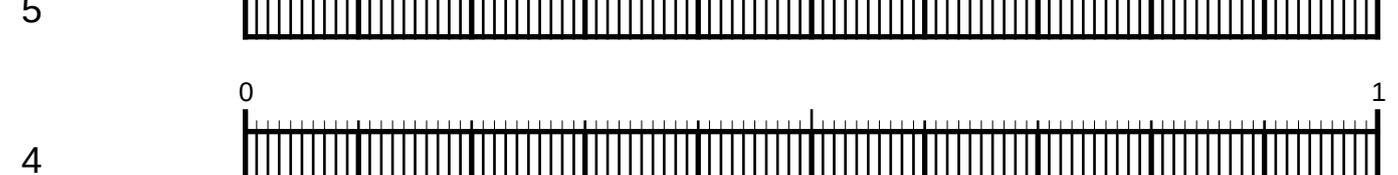

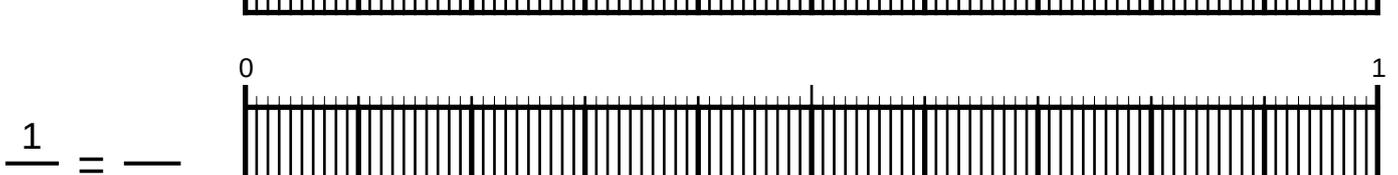

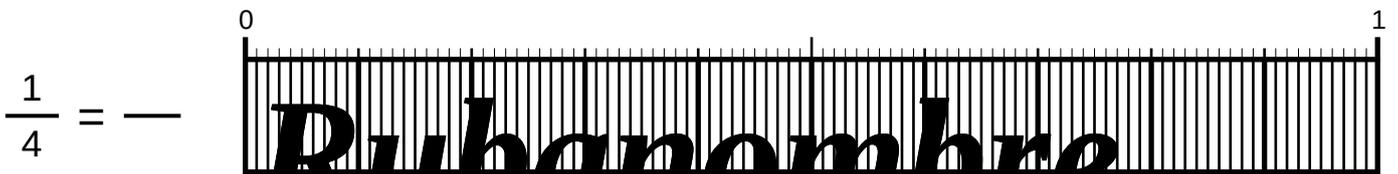

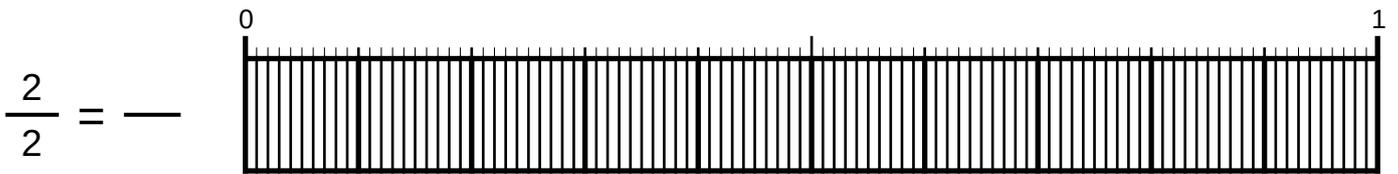

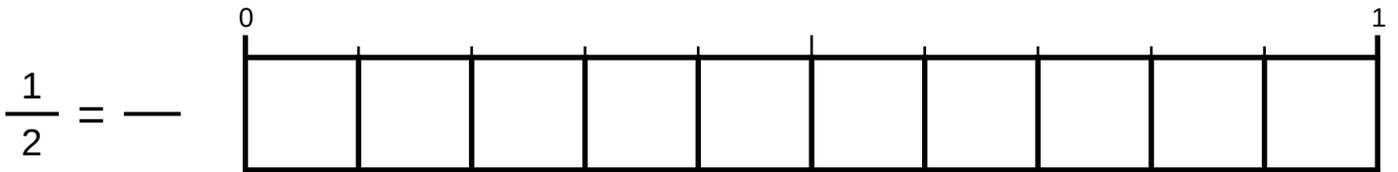

Rubanombre

décimal

exercices

Colorie les fractions dans les bandelettes de 1 puis trouve une fraction équivalente.

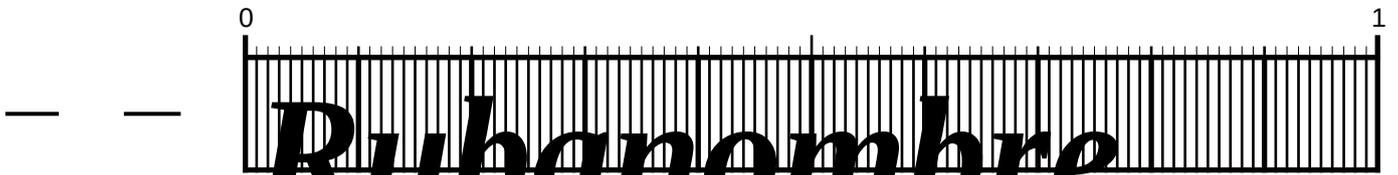

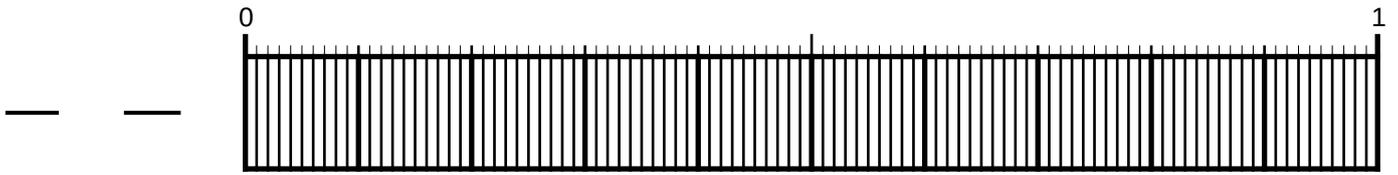

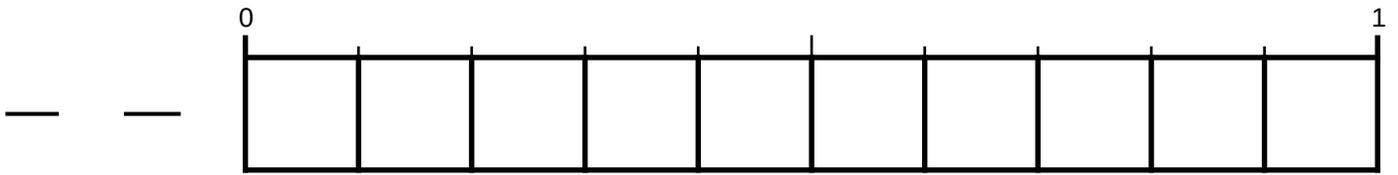

Rubanombre

décimal

exercices

Colorie les fractions dans les bandelettes de 1 puis trouve une fraction équivalente.

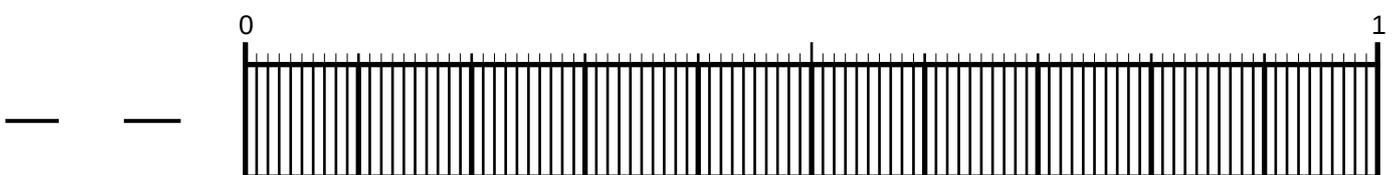

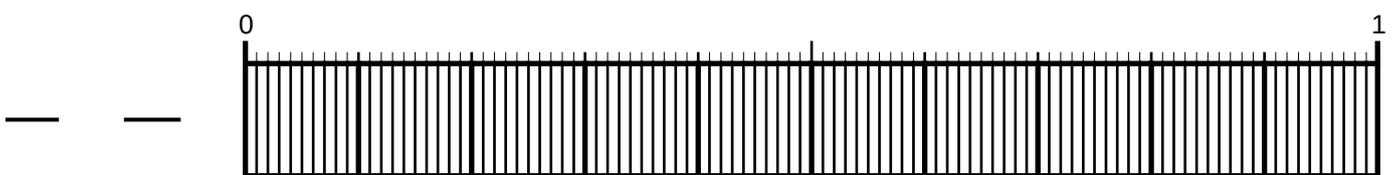

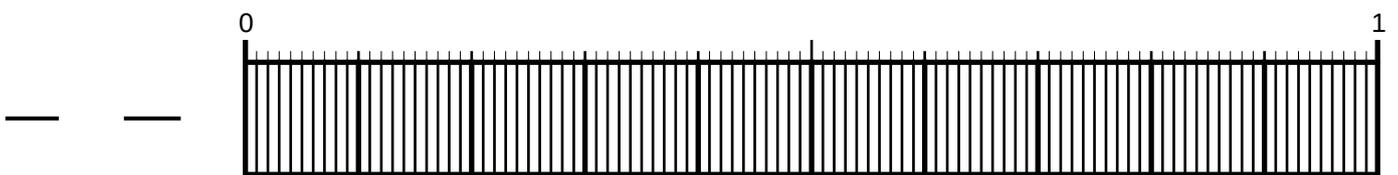

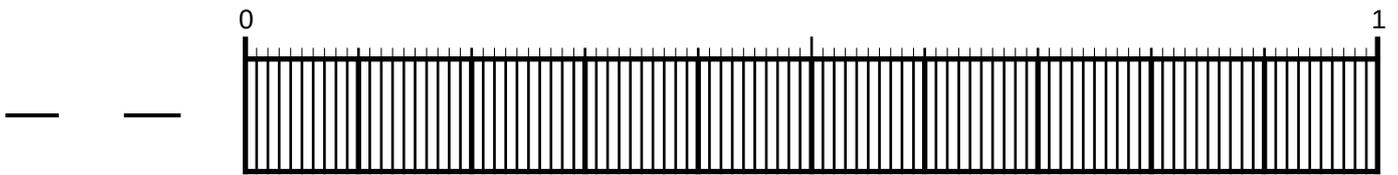

Rubanombre

décimal

exercices

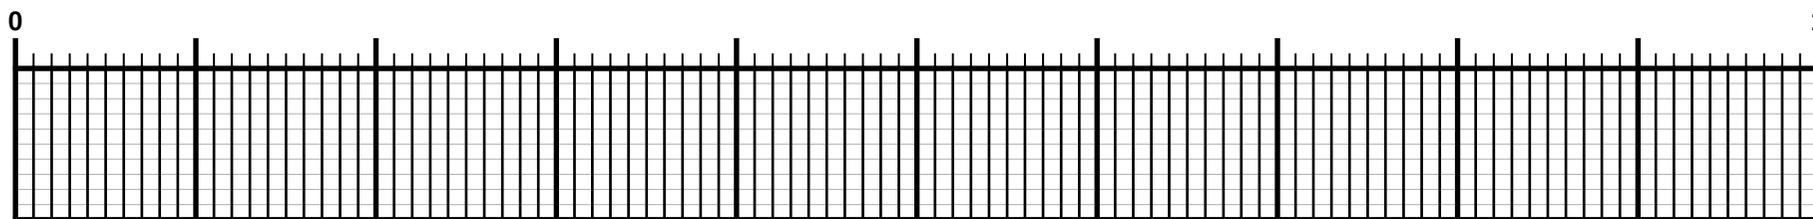

Place les nombres dans l'abaque, puis réécrit-les à côté du signe « égal ».
